DETAILED ACTION

Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 56, 57 and 70-73 are rejected under 35 U.S.C. 103(a) as being unpatentable over lwata et al. (U.S. 5,846,695).

lwata et al. teach a cleaning composition consisting essentially of choline hydroxide compound; 0.1 to 4 percent by weight of hydroxylamine; and water (column 3, line 18 – column 4, line 31).

lwata et al. fail to teach wherein the hydroxylamine percent is from about 2 to about 12 percent by weight. However, in the case where the claimed ranges "overlap or lie inside ranges disclosed by the prior art" a prima facie case of obviousness exists.

MPEP 2144.05. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to use the concentration range disclosed in Iwata et al. to arrive at the claimed invention.

Allowable Subject Matter

3. Claims 46-55 and 58-69 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to teach from a cleaning composition having an organic solvent selected from the group consisting of dimethyl sulfoxide, ethylene

Art Unit: 2823

glycol, ethylene glycol alkyl ether, diethylene glycol alkyl ether, triethylene glycol alkyl ether, propylene glycol, propylene glycol alkyl ether, N-substituted pyrrolidone, ethylene diamine and ethylene triamine.

Response to Arguments

4. Applicant's arguments filed 04/25/2005 have been fully considered but they are not persuasive.

In response to applicants arguments, the term "consisting essentially limits the scope of a claim to the specified materials or steps "and those that do not materially affect the basic and novel characteristic(s)" of the claimed invention". MPEP 2111.03 [R-2]. Taking this into consideration, there is no indication in the in the instant specification or claims that the inclusion of sugar or sugar alcohols alter the basic and novel characteristics of the invention and furthermore, the rejection is not based on the obviousness of excluding sugar or sugar alcohols of Iwata et al.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Application/Control Number: 10/007,134

Art Unit: 2823.

the advisory action. In no event, however, will the statutory period for reply expire later

than SIX MONTHS from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to examiner Julio J. Maldonado whose telephone number

is (571) 272-1864. The examiner can normally be reached on Monday through Friday.

7. If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Olik Chaudhuri, can be reached on (571) 272-1855. The fax number for this

group is 703-872-9306 for before final submissions, 703-872-9306 for after final

submissions and the customer service number for group 2800 is (703) 306-3329.
